

MEMORANDUM

January 22, 2004

TO: All Interested Parties

FROM: Northwestern Hawaiian Islands Steering Committee

SUBJECT: Postponement of the Northwestern Hawaiian Islands Science Symposium

This memorandum is to officially inform you that the **Northwestern Hawaiian Islands Science Symposium** scheduled for April 5-8, 2004 at the Hawai'i Convention Center has been postponed and rescheduled to November 2-4, 2004 at the same location. Although we received a significant number of abstracts for the symposium, a great deal of scientific information from past research projects and studies are still needed to provide a complete continuum of the scientific work that has been conducted since the last symposium in the 1980s.

Accordingly, the Symposium Steering Committee is identifying individual presenters for these topic areas. Additionally, abstracts which were submitted in November 2003 are currently being reviewed by the committee, and authors will be notified shortly on whether their abstracts have been approved.

For more information and updates on the NWHI Science Symposium, please visit the Council website at www.wpcouncil.org.

Mahalo!
