

FISHERS FORUM

Hawaii

Get involved. Stay involved.

FREE EVENT
October 12, 2010
6-9 p.m.
Aloha Tower
Marketplace

We once knew how **to share** the ocean and its resources. Now, some people **don't know**, some **don't care** and others **use politics** to kick fishermen out.

In July 2010, President Obama established a National Ocean Council and a program of coastal and marine spatial planning to **carve up the ocean** for different users.

Get involved. Share your mana'o!

It's time to get organized ... so Hawaii's fishermen and other ocean users can determine themselves the **best way** to resolve conflicts and continue to have access to waters for **traditional uses and activities!**

Learn more and share your ideas with other fishermen and ocean users. Free parking at the Aloha Tower Marketplace or Topa Center, refreshments and door prizes courtesy of Cox radio. For more information, go to **www.wpcouncil.org/meetings** or call **522-8220**.

FISHERS FORUM
Marine Spatial Planning:
Fishermen and Ocean User Perspectives
6 to 9 p.m., October 12, 2010
Aloha Tower Marketplace Waterfront
