SUPPLEMENTARY INFORMATION:

I. Abstract

The regulations at 50 CFR 648.122 require that vessels that are subject to the provisions of the Southern and Northern Gear Restricted Areas may fish for, or possess, non-exempt species (*Loligo* squid, black sea bass and silver hake (whiting)) using trawl nets. The nets must have a minimum mesh size less than 4.5 inches (diamond mesh), provided that the following requirements are met:

1. The vessel carries on board all required Federal fishery permits and a Scup GRA Exemption Program Authorization issued by the Regional Administrator, Northeast Region;
2. The vessel carries a NMFS-certified observer on board if any portion of the trip will be, or is, in a GRA; and,
3. The vessel fishes in a GRA only with a specially modified trawl net that has an escapement extension consisting of a minimum of 45 meshes of 5.5-inch (13.97-cm) square mesh that is positioned behind the body of the net and in front of the codend.

II. Method of Collection

To enroll in the Scup GRA Exemption Program, vessel owners are required to call the National Marine Fisheries Service Northeast Regional Office (NERO) Permits Office at (978) 281-9370, and provide the vessel name, permit number, mailing address, and the GRA (i.e., Southern or Northern) for which exemption is requested. The vessel must carry the Letter of Authorization (LOA) for the Scup GRA Exemption Program issued by the Regional Administrator. In addition, each vessel must obtain, pay for, and carry on board a NMFS-certified observer when fishing in a Scup GRA using the exempted gear. Vessel owners who enroll in the Program and request an LOA are required to make arrangements to obtain an observer for

any trip that will be in a GRA by calling the NOAA-certified observer contractor a minimum of 5 business days in advance of the start of the trip, and providing the following information: Vessel name and permit number; captain or contact name and phone number; port of departure; and date of departure.
