REGIONAL
FISHERY
MANAGEMENT
COUNCIL**

June, 2005

Amendment 14 to the Pelagics Fishery Management Plan would recommend a range of management, monitoring and research actions for international fisheries, as well as implement new permit and reporting requirements for Hawaii-based non-longline vessels. Amendment 14 was recommended by the Council at their 127th meeting in June 2005 and is now being finalized for transmittal to NMFS for approval and implementation.
