

*Council address:* Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, FL, 33607.

**FOR FURTHER INFORMATION CONTACT:** Dr. Morgan Kilgour, Fishery Biologist, Gulf of Mexico Fishery Management Council; telephone: (813) 348-1630; fax: (813) 348-1711; email: [morgan.kilgour@gulfcouncil.org](mailto:morgan.kilgour@gulfcouncil.org).

**SUPPLEMENTARY INFORMATION:** The items of discussion on the agenda are as follows:

*Penaeid Shrimp Workshop agenda, Wednesday, August 13, 2014, 10 a.m. E.S.T. (9 a.m. C.S.T.)*

1. Introduction to Council Charge—"To hold a workshop to evaluate the MSY and ABC control rule based benchmarks for *penaeid shrimp*"
2. Discussion of MSY and ABC Control Rule Based Benchmarks for *Penaeid Shrimp* Workshop
  - a. Data inputs needed
  - b. Required data and models for workshop
3. Discuss duration of in-person workshop in October and Finalize Dates
4. Other business

#### Adjourn

The Agenda is subject to change, and the latest version will be posted on the Council's file server, which can be accessed by going to the Council Web site at <http://www.gulfcouncil.org> and clicking on FTP Server under Quick Links. For meeting materials see folder "Penaeid Shrimp Workshop meeting—2014-08" on Gulf Council file server. To access the file server, the URL is <https://public.gulfcouncil.org:5001/webman/index.cgi>, or go to the Council's Web site and click on the FTP link in the lower left of the Council Web site (<http://www.gulfcouncil.org>). The username and password are both "gulfguest".

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

#### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for

sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Council Office (see **ADDRESSES**), at least 5 working days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: July 22, 2014.

**Tracey L. Thompson,**  
*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

#### Pacific Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The Pacific Fishery Management Council's (Pacific Council) ad hoc Lower Columbia River Natural Coho Workgroup (LRC Workgroup) will hold a public work session August 14, 2014 at the Pacific Council office in Portland, OR. The meeting is open to the public, but is not intended as a public hearing. Public comments will be taken at the discretion of the LRC Workgroup chair as time allows.

**DATES:** The work session will begin at 9 a.m. on Thursday, August 14, 2014 and will proceed until 5 p.m. or until business for the day is completed.

**ADDRESSES:** The work session will be held at the Pacific Council office, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384, telephone: (503) 820-2280 (voice) or (503) 820-2299 (fax). The Pacific Council may provide one-way streaming of the meeting audio and presentations to broaden the potential audience. If such arrangements are made, the details will be posted on the Pacific Council Web page in advance of the session.

**FOR FURTHER INFORMATION CONTACT:** Mr. Mike Burner, telephone: (503) 820-2414.

**SUPPLEMENTARY INFORMATION:** The primary purpose of the work session is to continue to develop reports and recommendations on the status of Lower Columbia River coho stocks, alternative harvest policies, and risk assessment.

The LRC Workgroup reports and recommendations are scheduled to be presented to the Pacific Council at its September 2014 meeting in Spokane, WA.

Although non-emergency issues not contained in the LRC Workgroup meeting agendas may come before the LRC Workgroup for discussion, those issues may not be the subject of formal LRC Workgroup action during this meeting. LRC Workgroup action will be restricted to those issues specifically listed in this document and to any issues arising after publication of this document requiring emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the LRC Workgroup's intent to take final action to address the emergency.

#### Special Accommodations

This public meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at (503) 820-2425 (voice), or (503) 820-2299 (fax) at least 5 days prior to the meeting date.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: July 22, 2014.

### National Oceanic and Atmospheric Administration

**RIN 0648-XD403**

#### Pacific Island Fisheries; Marine Conservation Plan for the Northern Mariana Islands

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of agency decision.

**SUMMARY:** NMFS announces approval of a marine conservation plan (MCP) for the Northern Mariana Islands.

**DATES:** This agency decision is effective from August 4, 2014, through August 3, 2017.

**ADDRESSES:** You may obtain a copy of the MCP, identified by NOAA-NMFS-2014-0007, from the Federal e-Rulemaking Portal, [www.regulations.gov/](http://www.regulations.gov/)

#/docketDetail;D=NOAA-NMFS-2014-0007, or from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, tel 808-522-8220, [www.wpcouncil.org](http://www.wpcouncil.org).

**FOR FURTHER INFORMATION CONTACT:**

Jarad Makaiau, Sustainable Fisheries, NMFS Pacific Islands Regional Office, 808-725-5176.

**SUPPLEMENTARY INFORMATION:** Section 204(e) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the Secretary of State, with the concurrence of the Secretary of Commerce (Secretary) and in consultation with the Council, to negotiate and enter into a Pacific Insular Area fishery agreement (PIAFA). A PIAFA would allow foreign fishing within the U.S. Exclusive Economic Zone (EEZ) adjacent to American Samoa, Guam, or the Northern Mariana Islands with the concurrence of, and in consultation with, the Governor of the Pacific Insular Area to which the PIAFA applies. Before entering into a PIAFA, the appropriate Governor, with the concurrence of the Council, must develop a 3-year MCP providing details on uses for any funds collected by the Secretary under the PIAFA.

The Magnuson-Stevens Act requires payments received under a PIAFA to be deposited into the United States Treasury and then conveyed to the Treasury of the Pacific Insular Area for which funds were collected. In the case of violations by foreign fishing vessels in the EEZ around any Pacific Insular Area, amounts received by the Secretary attributable to fines and penalties imposed under the Magnuson-Stevens Act, including sums collected from the forfeiture and disposition or sale of property seized subject to its authority, shall be deposited into the Treasury of the Pacific Insular Area adjacent to the EEZ in which the violation occurred, after direct costs of the enforcement action are subtracted. The government may use funds deposited into the Treasury of the Pacific Insular Area for fisheries enforcement and for implementation of an MCP.

An MCP must be consistent with the Council's fishery ecosystem plans, must identify conservation and management objectives (including criteria for determining when such objectives have been met), and must prioritize planned marine conservation projects. Although no foreign fishing is being considered at this time, at its 160th meeting held June 24-27, 2014, in Honolulu, the Council reviewed and approved the MCP for the Commonwealth of the Northern Mariana

Islands (CNMI) and recommended its submission to the Secretary for approval. On July 11, 2014, the Governor of the CNMI submitted the MCP to NMFS, the designee of the Secretary, for review and approval.

The CNMI MCP contains seven conservation and management objectives, listed below. Please refer to the MCP for planned projects and activities designed to meet each objective, the evaluative criteria, and priority rankings.

**MCP Objectives:**

1. Improve fisheries data collection and reporting.
2. Conduct resource assessment, monitoring, and research to gain a better understanding of marine resources and fisheries.
3. Conduct enforcement training and monitoring activities to promote compliance with federal and local mandates.
4. Promote responsible domestic fisheries development to provide long-term economic growth, stability, and local food production.
5. Conduct education and outreach, enhance public participation, and build local capacity.
6. Promote an ecosystem approach to fisheries management, climate change adaptation and mitigation, and regional cooperation.
7. Recognize the importance of island cultures and traditional fishing practices in managing fishery resources, and foster opportunities for participation.

This notice announces that NMFS has determined that the CNMI MCP satisfies the requirements of the Magnuson-Stevens Act and approves the MCP for the 3-year period from August 4, 2014, through August 3, 2017. This MCP supersedes the one approved for the period August 4, 2011 through August 3, 2014 (76 FR 50183, August 12, 2011).

Dated: July 21, 2014.

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**RIN 0648-XC588**

**Marine Mammals; File No. 17344**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of permit.

**SUMMARY:** Notice is hereby given that a permit has been issued to Samuel Wasser, Ph.D., University of Washington, Department of Biology, P.O. Box 351800, Seattle, WA 98195 to conduct research on killer whales (*Orcinus orca*).

**ADDRESSES:** The permit and related documents are available for review upon written request or by appointment in Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

**FOR FURTHER INFORMATION CONTACT:** Courtney Smith or Jennifer Skidmore, (301) 427-8401.

**SUPPLEMENTARY INFORMATION:** On April 10, 2013, notice was published in the **Federal Register** (78 FR 21347) that a request for a permit to conduct research on killer whales had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit authorizes research on killer whales of the endangered Eastern North Pacific Southern Resident stock in waters of Washington, including the San Juan Islands and Puget Sound. The objective of the research is to use noninvasive physiological and genetic measures to examine the impacts of the three major threats to this stock: (1) Reduced prey ability; (2) excessive exposures to environmental contaminants; and (3) disturbance from private and commercial vessel traffic. The primary research method is the collection of opportunistic fecal samples, which would be scooped from the water column and then analyzed for genetics, hormones, and contaminants. Each year, the entire population of Southern Resident killer whales (currently estimated at 80 individuals) would be approached up to six times for photo-identification and fecal sampling. Fifteen killer whales of the Eastern North Pacific transient stock may also be approached annually for the same activities. The permit would be valid for five years.

In compliance with the National Environmental Policy Act of 1969 (42
