

“Spawning SMZs”. The amendment would also modify the framework procedure to allow modifications of and/or additional Spawning SMZs through the Snapper Grouper Fishery Management Plan for the South Atlantic. The amendment includes sample sites for Spawning SMZ sites and allows for the boundary of the existing Charleston Deep Artificial Reef MPA off the coast of South Carolina to be moved to accommodate recently deployed artificial reef material. Fishing for or possession of snapper grouper species would be prohibited within the Spawning SMZs, but fishermen would be allowed to troll for pelagic species (e.g., mackerels, billfish, tunas, etc.). The amendment also includes alternatives for transit and anchoring provisions.
