

# Community Workshops

## Fisheries Management Regulatory Review

Do you know of a fishing rule that doesn't seem to work or perhaps is out of date? Maybe there's a rule that has worked well in one area and might be good for another? Have you ever wondered how these rules were made in the first place and how you can provide your input?

If you have, come and join the Western Pacific Fishery Management Council (WesPac) and various governmental agencies who are holding community workshops to discuss the efficacy and necessity of current fishing rules and regulations that affect aquatic resources, fishing and fisheries in Hawaii.

**FREE ADMISSION ~ FREE OR VALIDATED PARKING**
