

**FISH Project**  
**(Fisheries Internships and Student Help)**

**Potential Project Descriptions**

- *Annual Report Development*  
The Intern would be responsible for the compilation and development of annual report modules including, but not limited to, non-commercial fishing, protected species, habitat, human dimensions, indigenous fishing communities/TEK, ecosystem indicators, catch and effort data.
- *EFH Review Assistance*  
The Intern would be responsible for components of current EFH reviews taking place or proposed for review. Components could include literature reviews, impacts analysis, data compilation, etc.
- *Data Analysis Projects*  
The Council has many projects that collect data but need assistance in analyzing data and creating databases. These projects would need to have data and data sharing agreements in-hand prior to the start of the internship
- *Community Management Plan Projects*  
The Intern would assist the staff in developing the community management plans where necessary by developing documents, generating data, providing reviews, etc.
- *Fishery Ecosystem Plan Amendment support*  
The intern would be responsible for assisting staff in the development of FEP amendment analysis, document writing, formatting, and literature review.

Other duties that interns may be involved with:

- Assist coordination of Hawaii high school summer course. Planning, logistics, implementation
- Council Advisory Group, Council and SSC Meeting coordination and support
- Education and outreach events
- Other duties as assigned
