**FOR FURTHER INFORMATION CONTACT:** Dr. Kit Dahl, Pacific Council; telephone: (503) 820-2422.

**SUPPLEMENTARY INFORMATION:** At its September 2017 meeting, the Pacific Council decided to embark on the Climate and Communities Initiative pursuant to its Fishery Ecosystem Plan. The purpose of this initiative is to help the Pacific Council, its advisory bodies, and the public to better understand the effects of near-term climate shift and long-term climate change on our fish, fisheries, and fishing communities and identify ways in which the Council could incorporate such understanding into its decision-making. The EWG will be submitting a report to the Pacific Council at its March 2018 meeting with its recommendations on the development of this initiative. This webinar is an opportunity for members of other Pacific Council advisory bodies and the public to be briefed on the EWG's recommendations in preparation for the March Pacific Council meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
