Northern Mariana Islands **CNMI**
Advisory Panel
2019-2022

JOIN OUR ADVISORY PANEL TEAM

- Help shape your future fisheries
- Be part of the solution
- Learn about fisheries management

The Western Pacific Regional Fishery Management Council is one of eight U.S. regional fishery management councils established by Congress in 1976. Under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), the Western Pacific Council has authority over the fisheries in the Pacific Ocean seaward of state/territorial waters of Guam, the Commonwealth of the Northern Mariana Islands (CNMI), Hawai'i, American Samoa and the U.S. Pacific remote island areas. **The MSA mandates the establishment of Advisory Panels to assist the Councils in the collection and evaluation of information relevant to the development and amendment of its fishery management plans.**

www.wpcouncil.org

OUR MISSION

is to engage the fishing community and provide opportunities to actively participate in the Western Pacific fishery management process.
