The archipelagos of Hawai‘i, American Samoa and the Marianas (Guam and the Commonwealth of the Northern Mariana Islands) are specks of land in the world’s largest ocean. These islands have been inhabited for millennia by the people known today as Hawaiians, Samoans, Chamorro and Refaluwasch. For these ocean people, fish and crustaceans are primary sources of protein. The reefs and the sea are their “icebox,” particularly when preparing for family gatherings, holidays and other special occasions.

In this recipe book, we share with you both traditional fish dishes—such as oka from American Samoa, poke from Hawai‘i and kelaguen from the Marianas—as well as contemporary Pacific island cuisine. Many of the recipes are from renowned chefs specializing in the fusion of native dishes with the seafood traditions of Asian and other immigrant populations who, over the past centuries, have made these archipelagos their home.

The book gathers together the majority of the recipes that the Western Pacific Regional Fishery Management Council has shared over nearly four decades through its Pacific Islands Fishery News, at its booth at the annual NOAA Fish Fry, at Teacher Workshops on the Hawai‘i Seafood Industry, during Fishers Forums held as part of its Council meetings and at other events, such as the First Stewards Symposium: Coastal Peoples Address Climate Change.

We thank the many chefs, the Guam Fishermen’s Cooperative Association, Hawaii Fishing News and all the others who have shared these recipes with the Council as well as the Hawaii Longline Association and United Fishing Agency for providing fresh fish for the Council to share at these events. We especially thank the fishermen who put fish in our pots and on our plates. We look forward to continued work with them, and with you, as we strive to ensure Fish Forever, especially local fish for local families.

---

Is _kelaguen_ an appetizer, a main dish or a “chaser”? Well, it all depends on the venue and the purpose of getting together.

If the guys are getting together to drink some beer, then it is a chaser (“Chesa”) and that is usually in combination with a BBQ (grilling) going on. The “Chesa” will be in a serving dish by the BBQ pit and is usually by itself or with a side of “Titiyas” (corn tortillas, a thicker version of the Mexican kind).

Most times it is a course in a multi-course (emphasis on “MULTI”) meal offering as with many family (e.g., weddings, christenings, etc.) and community gatherings (e.g., fiestas, patron saint celebrations). It is not uncommon for the typical “BBQ” to have 20 plus items on the main table, which could include as many as five different types of kelaguen offerings.

What is Poke?

Poke (pronounced POH-keh) is a raw fish salad that is a signature dish in the Hawaiian Islands. This delicious “local grind” is commonly offered as an appetizer or side dish.

In Hawaiian, poke means “to cut into pieces.” Poke’s bite-size pieces of raw fish complemented by a variety of seasonings reflect the diversity of the local culture. Traditionally, Native Hawaiians used fresh, locally available ingredients such as sea salt, limu (seaweed), and ‘inamona (roasted, ground kukui nut) to make poke. Today, poke is available with seasonings and vegetables introduced to Hawai‘i such as shoyu (soy sauce), ponzu (citrus-flavored soy sauce) and sesame oil from Japan; kimchee from Korea; Sriracha sauce from Thailand; and ginger from China. Garlic, lemon, tomatoes, chilies, and sweet and green onions are also featured in poke recipes.

The most common fish used in poke is ‘ahi, but it can also be made with aku, a‘u (marlin), octopus, raw crab, cooked shrimp, clams, smoked salmon or even steak. The options are endless. Just ask Sam Choy, one of Hawai‘i’s most popular and well-known chefs, who hosts an annual Poke Festival and has an entire recipe book dedicated entirely to poke!

Panko-Crusted ‘Ahi Sashimi with Soy-Wasabi Butter Sauce

Courtesy of Chef D. K. Kodama,
Sansei Seafood Restaurant & Sushi Bar,
Waikiki and Maui

Serves 4

Ingredients
½ lb ‘ahi, sashimi grade, cut into 1-inch strips
2 sheets nori (dried seaweed), cut in half lengthwise
2 cups baby spinach, loosely packed
2 cups baby arugula, loosely packed
Kosher salt, to taste
Black pepper, freshly ground, to taste
Cottonseed, peanut or canola oil
1 cup all purpose flour
1½ cup tempura batter
2 cups panko (Japanese breadcrumbs)
¾ cup Soy-Wasabi Butter Sauce
1 tsp black sesame seeds
1 tsp fresh chives, chopped

Soy-Wasabi Butter Sauce
1 tbsp cottonseed, peanut or canola oil
1 tsp shallot, minced
½ cup dry white wine
1 tbsp fresh ginger, peeled and minced
1 tsp lime juice, freshly squeezed
¼ cup heavy cream
½ cup unsalted butter
3 tbsp sweet Thai chili sauce
1 tbsp wasabi paste
6 tbsp shoyu (Japanese soy sauce)

In sauce pan, heat oil over medium-high heat. Add shallots and sauté until translucent, 1 to 2 minutes. Add wine, ginger and lime juice and cook until reduced by half, about 12 minutes. Add cream and cook to reduce by one-third, about 10 minutes. Whisk in butter until smooth. Remove from heat and strain through a fine-mesh sieve. Stir in chili sauce. In small bowl, combine wasabi and shoyu. Whisk wasabi mixture into butter sauce until smooth. Keep warn until ready to use.

Preparation

Lay a nori, shiny side down with long side closest to you. Cover with a quarter of the spinach and arugula. Leave a ¼-inch border at the top for sealing. Lay a quarter of the ‘ahi strips across the center. Season, and roll tightly. Wet inside edge with water, and seal the roll. Repeat with other nori.

In a heavy saucepan, pour oil to depth of 4 inches and heat to 375 degrees. Coat rolls with flour, then dip in tempura batter and then coat with panko. Add rolls to oil and fry. Turn with tongs to coat evenly, until golden brown, no more than 3 minutes. Do not overcook. ‘Ahi in center should be bright red and uncooked. Using a slotted spoon, immediately remove from oil. Handling each roll carefully, slice in 6 pieces. Transfer to paper towels to drain.

Plating

To plate, spoon 3 tbsp of Soy-Wasabi Butter Sauce onto each of 4 plates. Place 6 ‘ahi roll pieces on sauce. Sprinkle with sesame seeds and chives. Serve immediately.

Courtesy of Executive Chef Eric Letere, The Pacific Club, Honolulu

Serves 4

Ingredients
4 6-oz uku or snapper fillets
2 oz fresh ginger, julienned

Nage
2 cups chicken stock
6 oz unsalted butter
1 cup vine-ripe tomato, diced
1 bunch Chiso leaves, julienned
2 tbsp pickled ginger, chopped
3 tbsp ogo (seaweed), chopped
Salt, to taste

Okinawan Sweet Potatoes
1½ Okinawan sweet potatoes
2 oz fresh ginger
2 cups heavy cream, warmed
Salt, to taste

Preparation
Place fish on a perforated pan, and top with fresh ginger julienne. Place pan in a steamer or over boiling water to recreate a steaming environment. Cook about 6 minutes or until the fish is soft to the touch.

In a sauce pot, prepare the tomato nage. Heat the chicken stock to boiling. Then, using a whisk, add the unsalted butter, diced tomato, julienned Chiso leaves, pickled ginger, chopped ogo and seasoning. Keep the nage at a lower temperature as you add the ingredients and until the dish is served to maintain the fragrance of the ingredients.

Prepare the Okinawan sweet potato. Peel the potatoes and fresh ginger, and place them in a pot with cold water. Cook at medium to high heat until soft. Then put them through a vegetable mill or food processor. Mix the mashed potatoes to a semi-soft consistency by adding the hot cream. Season to taste.

Plating
Place the potatoes in the middle of the plate. Using a spoon or ladle, pour the nage around the potatoes. Finish by placing the uku filet on top.

Akule ala Fishery Attaché

This recipe, formerly known as Aji* ala Fishery Attaché, was developed by former Council fishery consultant Bob Iversen when he was the Fishery Attaché at the U. S. Embassy in Tokyo from 1980-1983.

Serves 4

Ingredients:
- 4 medium-sized fresh akule, cleaned but left whole for stuffing
- 1 medium onion, chopped
- 2 green onion, chopped
- 2 tomatoes, chopped
- ¼ cup olive oil
- ¼ white wine
- 2 tbsp shoyu (soy sauce)

Preparation:
Make a marinade of olive oil, white wine and shoyu. Add the diced vegetables and marinate for at least for one hour. When ready to stuff, butterfly the akule fillets. Carefully pack the stomach cavity of each akule with the marinated vegetables. Place stuffed akule on a large piece of aluminum foil (about 12 x 24) that has been folded in half, so that foil is doubled. Pour the leftover liquid over the stuffed akule. Wrap up the foil around the fish and fold in all sides tightly so that no steam or juices escape. Bake in pre-heated oven at 350 degrees for about 15-20 minutes. Serve in foil with steamed rice on the side.

* Aji is the Japanese name for akule.

**Ingredients**

- Fresh fish, cleaned and scaled
- Hawaiian salt
- Ginger, sliced
- Green onion, chopped
- Dried turnip (chung choy), chopped
- 1 tsp vegetable oil
- White pepper
- Shoyu (soy sauce)
- Chinese parsley

*Note: The amount of spices used depends on individual taste—a splash here and a dash there.*

**Preparation**

Place fish in large bowl. If fish is too large, cut fish in half and place both halves in the bowl. Rub fish lightly with Hawaiian salt. Place ginger, green onion and dried turnip (chung choy) over fish and inside gut cavity. Sprinkle vegetable oil and a light shower of white pepper over fish. Fill a large pot with 1 ½ inches of water. Place the bowl of fish in pot and cover. Boil water for 5 to 8 minutes and then simmer for 10 to 15 minutes (longer for larger fish). When reducing the heat to simmer, sprinkle some soy sauce over the fish. Do not overcook as the fish will get tough. Experience will help you to judge how long you should cook your fish. Sprinkle Chinese parsley over the fish before serving. Not only will it enhance the appearance and taste, parsley is supposed to be good for people with high blood pressure.

Shark Matelote

Courtesy of Fishes of Polynesia by Raymond Bagnis et al.

Ingredients

- 1 small shark or several shark fillets
- 2 tbsp parsley, chopped (reserve some for garnish)
- 1 medium yellow onion, chopped
- ½ cup white wine
- 1 garlic clove, minced
- 2 tbsp butter
- 2 tbsp oil
- 1 sprig thyme
- 4-5 bay leaves
- ½ cup red wine
- Flour
- Salt and pepper, to taste

Preparation

Skin and remove the red muscles from a small shark. Cut fillets of white meat from the back, and then wash them thoroughly under a running tap to remove smell. Make a stock by simmering some finely chopped parsley and onion in a little white wine and water, for 15 minutes, and then strain. In a frying pan, brown a chopped shallot or onion and a clove of garlic in a mixture of butter and oil. Add the fillets, stock, thyme, a few bay leaves and a little red wine. Watch the fillets carefully as shark meat tends to flake apart when overcooked. Remove the fish when it seems properly cooked, and thicken the sauce with some butter and flour to a consistency that will stick to the back of a spoon. Salt sparingly and pepper. Arrange the fillets on a serving dish then cover them with the sauce and sprinkle with chopped parsley. Serve with fried croutons and boiled potatoes.

**Gorilla ogo (Gracilaria salicornia)** is an invasive alien seaweed species from the Philippines that is threatening both coral and native seaweed of cultural and subsistence importance to Hawaiians. The seaweed was intentionally released in waters off O‘ahu and Moloka‘i in the 1970s by researchers who erroneously believed that it would be a good source of agar, a seaweed extract used as a solidifying agent in everything from ice cream to eye cream. In 2004, it reportedly made up 11 to 60 percent of the bottom cover of O‘ahu’s south shore.
