About This Calendar

The literal meaning of *kaulana mahina* is position of the moon. In the traditional Hawaiian calendar, the 29.5-day *mahina* (moon) cycle is divided into three *anahulu* (10-day period): *ho'oulu* (growing bigger), beginning on the first visible crescent; *poepoe* (round or full); and *hō'emi* (decreasing). The traditional names of the Hawaiian moon months and phases may vary by island and *moku* (district). This calendar uses the O'ahu moon phases listed in the *Hawaiian Almanac* by Clarice Taylor. The tides chart and moon rise and set times are in HST for Pearl Harbor and were provided by OceanFun Publishing, NZ.

For an electronic version of this calendar, go to www.wpcouncil.org/educational-resources/lunar-calendars.

About the Council

The **Western Pacific Regional Fishery Management Council** is one of eight councils established by Congress in 1976. Under the Magnuson-Stevens Act (MSA), the Western Pacific Council has authority over fisheries in the Pacific Ocean seaward of state/territorial waters of Hawai'i, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and eight U.S. Pacific Remote Island Areas.

There are many different reasons to get involved in fishery management, but they all involve being part of the process. Whether you are a weekend shoreline fisher, a full-time commercial longliner, a part-time recreational or subsistence fisher, a non-fishing ocean lover or any other interested person—your voice and opinions can be heard by the Council and become part of the decision-making process.

Becoming involved may mean attending a Council meeting, reading proposed fishery management amendments available on the Council's website or by contacting the Council office, making comments on a proposed action, or being on one of the Council's advisory groups.

The days of the wet season months are colored purple to lavender, and the dry season months are pink to orange.
