

# Reducing Red Tape in Federal Waters around Guam

The Western Pacific Fishery Management Council and the Lynker team will host a series of meetings on Guam in **mid-March**. These meetings will provide a space for local fishermen and community members to **share experiences, cultural knowledge, and concerns about federal fisheries rules, laws, and regulations.**

## Discussion Topics

1. How often do you fish in federal waters (further than 3 miles from shore)?
2. How easy is it to understand federal fishing rules and regulations?
3. Is the difference between local and federal fishing laws clear?
4. Are there federal rules or regulations that you find confusing, difficult, or unneeded?

## Location and Dates

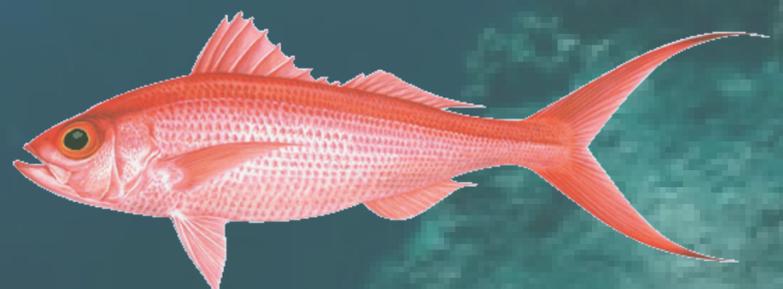

Dededo Village Community Center  
*319 Iglesia Circle, Dededo*  
**March 16, 6-8 p.m.**
